CarCoon STR 6	2,00 x 5,60 m	Blue, Red, Transparent/Red and Silver
CarCoon STR 7	2,00 x 6,10 m	Silver

Description

Usage	<p>The CarCoon is extremely simple to use. All you have to do is cover the garage floor with the included base mat. Then you park your car on the mat, place the top cover over the vehicle and fasten it to the base using the special zip fastener. Plug in the power supply for the blowers and five minutes later, your car is stored in its own optimally protected environment. The CarCoon comes with a battery management system that powers the CarCoon and at the same time maintains the battery of the stored vehicle.</p>
Construction	<p>The CarCoon is the ultimate vehicle storage system ever invented and will protect your investment perfectly. CarCoon has a unique and patented 'active airflow' system (worldwide patent) that consists of two air-treatment blower units, which operate continuously to provide super-atmospheric circulating airflow at all times. This will protect your car from condensation by protecting from dew point saturation. Importantly, the circulating air comes from inside the storage unit itself, and effectively isolates the flow of air from the humid outside environment. The blowers are economic as they have an extremely low consumption of electricity.</p>
